### CATARRH MICROBES

A Dead Microbe is the Best Microbe  
—Hyomel Kills Them All.

Hyomel (pronounced High-o-me) is a killer of catarrh germs, because when you breathe it in, its antiseptic and germicide properties reach every nook and crevice of the mucous membrane, from the mouth and nose deep into the lungs.

Hyomel brings the Australian forests of pine and eucalyptus to your home. It is made of the active principles extracted from these trees.

No one who lives in or near these forests suffers from catarrh. No one who breathes in Hyomel, the real forest air of Australia, will have catarrh after the treatment starts.

If you want to cure catarrh, croup, bronchitis, coughs, colds, asthma, hay fever or relieve consumption, try Hyomel, the common-sense cure, the cure that reaches the spot.

A complete Hyomel outfit, including a hard rubber inhaler, costs only \$1.00, and extra bottles of Hyomel, if afterwards needed, cost but 50 cents. Guaranteed to cure or money back. Sold by leading druggists everywhere. Sold and guaranteed in East Las Vegas by E. G. Murphey.
